INTERVIEW SUMMARY

Sir:

On August 20, 2004 the undersigned participated in a telephone interview with Examiner Diamond regarding the above-captioned patent application in which independent claims 1 and 47 were discussed in view of the prior art of record. Applicants proposed to amend claims 1 and 47 so as to recite that the nanorods of claim 1 (and nanotetrapods of claim 47) are not grown from the first or second electrode layer. The

Examiner indicated this type of amendment looked okay, but said that he would consider it in more detail when such an amendment is officially submitted to the Office.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Andrew L. Filler".
